

**Permit to import conditionally non-prohibited goods**

This permit is issued under *Biosecurity Act 2015* Section 179 (1)

**Permit: 0003135924**

**Valid for: multiple consignments  
between 8 July 2019 and 8 July 2021**

This permit is issued to: Genobile Saba Australia Pty Ltd  
48A Radford Road  
RESERVOIR VIC 3073  
Australia

Attention: Mr Robert Genobile

**This permit is issued for the import of Biological products (Non-standard goods).**

Exporter details:	Various exporters
Country of export:	Italy

This permit includes the following good(s). Refer to the indicated page for details of the permit conditions:

1. Food items for human consumption	
Description:	Products listed under Permit Conditions 1.1.a as manufactured by TRADIZIONI PADANE SRL
End use:	Human consumption
Permit Conditions:	Food products <span style="float: right;">Page 3</span>
2. Food items for human consumption	
Description:	Products listed under Permit Conditions 2.1.a as manufactured by TRADIZIONI PADANE SRL
Permit Conditions:	Food products <span style="float: right;">Page 8</span>

NOTE: Where a good has more than one set of permit conditions please read each set to determine which set of permit conditions applies to a specific consignment.

----- **End of commodity list** -----

**This permit is granted subject to the requirement that fees determined under section 592(1) are paid.**

Paul Chappell  
Delegate of the Director of Biosecurity Date: 08 July 2019

## Important information about this permit and the import of goods

**Note:** This permit covers Department of Agriculture and Water Resources biosecurity requirements. It is your responsibility to ensure all legal requirements relating to the goods described in this import permit are met. While you should rely on your own inquiries, the following information is provided to assist you in meeting your legal obligations in relation to the importation of the goods described in this import permit.

### Authority to import

You are authorised to import the goods described in this import permit under the listed conditions.

### Compliance with permit conditions and freedom from contamination

All imports may be subject to biosecurity inspection on arrival to determine compliance with the listed permit conditions and freedom from contamination. Imports not in compliance or not appropriately identified or packaged and labelled in accordance with the import conditions they represent may be subject to treatment, export or destruction at the importer's expense, or forfeited to the Commonwealth.

### Compliance with other regulatory provisions

Additionally, all foods imported into Australia must comply with the provisions of the *Imported Food Control Act 1992*, and may be inspected and/or analysed against the requirements of the Australia New Zealand Food Standards Code.

All imports containing or derived from genetically modified material must comply with the *Gene Technology Act 2000*.

It is the importer's responsibility to identify and ensure they have complied with all requirements of any other regulatory organisations and advisory bodies prior to and after importation. Organisations include the Department of Immigration and Border Protection, the Department of Health, Therapeutic Goods Administration, Australian Pesticides and Veterinary Medicines Authority, the Department of the Environment, Food Standards Australia New Zealand and any state agencies such as Departments of Agriculture and Health and Environmental Protection authorities. Importers should note that this list is not exhaustive.

### Change of import conditions

Import conditions are subject to change at the discretion of the Director of Biosecurity. This permit may be suspended or revoked without notice.

### Notification of import

Notification of the import must be provided to the Department of Agriculture and Water Resources for all imported goods other than goods imported as accompanied baggage or goods imported via the mail and not prescribed under *the Customs Act 1901*. Notification must be consistent with the Biosecurity Regulation 2016.

### Valid import permit

The importer must hold a valid import permit at the time when the goods are brought or imported into Australian Territory.

The importer must verify that they hold a valid import permit in relation to the consignment by providing positive identification to the Department of Agriculture, by either:

- i. Submitting (or providing) the permit for biosecurity clearance.

OR

- ii. Providing any physical, digital or verbal information that allows the permit to be identified at the time of biosecurity clearance.

### Provision of required documentation

All required documentation must accompany each consignment. Alternatively, necessary documentation will need to be presented to the Department of Agriculture and Water Resources at the time of clearance. In order to facilitate clearance, airfreight or mail shipments should have all documentation securely attached to the outside of the package, and clearly marked "Attention Department of Agriculture and Water Resources". Documentation may include the import permit (or import permit number), government certification and invoice.

If the product description on the import permit varies from the identifying documentation provided for clearance, the importer is responsible for providing evidence to the biosecurity officer that the import permit covers the goods in the consignment.

Any documentation provided must comply with the Department of Agriculture and Water Resource's minimum documentation requirements policy.

## Permit conditions

It is the importer's responsibility to ensure that the following permit conditions are met in relation to each consignment. Where more than one set of permit conditions is shown for a good please read each set of conditions to determine which applies to a specific consignment.

### 1. Food products

This section contains permit conditions for the following commodity (or commodities):

1.	Food items for human consumption	
	Product Description:	Products listed under Permit Conditions 1.1.a as manufactured by TRADIZIONI PADANE SRL

#### 1.1. Biosecurity Pathway

Greece has confirmed an outbreak of lumpy skin disease. As a result, dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Greece on or after 25 June 2015 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Greece prior to 25 June 2015 is eligible for import. Additional government certification will be required for any eligible imports.

North Macedonia has confirmed an outbreak of lumpy skin disease. As a result, dairy ingredients (excluding cheese and butter) sourced and/or manufactured in North Macedonia on or after 20 February 2016 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in the North Macedonia prior to 20 February 2016 is eligible for import. Additional government certification will be required for any eligible imports.

Serbia has confirmed an outbreak of lumpy skin disease. As a result, dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Serbia on or after 9 April 2016 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Serbia prior to 9 April 2016 is eligible for import. Additional government certification will be required for any eligible imports.

Croatia has confirmed the commencement of vaccination against lumpy skin disease. As a result, Croatia is no longer recognised as being free from the disease. Dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Croatia on or after 8 August 2016 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Croatia prior to 8 August 2016 is eligible for import. Additional government certification will be required for any eligible imports.

Bosnia and Herzegovina has confirmed the commencement of vaccination against lumpy skin disease. As a result, Bosnia and Herzegovina is no longer recognised as being free from the disease. Dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Bosnia and Herzegovina on or after 30 March 2017 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Bosnia and Herzegovina prior to 30 March 2017 is eligible for import. Additional government certification will be required for any eligible imports.

- a. These conditions allow for the import of the following products only:  
The following products as manufactured by TRADIZIONI PADANE SRL  
Handmade Filled Pasta With Truffle Cream

Handmade Filled Pasta With Ricotta Cheese And Spinach  
Handmade Filled Pasta With Mozzarella And Tomatoes  
Handmade Filled Pasta With Pesto

- b. The cheese or butter ingredients must meet the following import conditions.  
To demonstrate compliance with this requirement you must present the following on a Health certificate:

i. **Disease status of the country of origin – FMD**

A statement that the dairy ingredients originated from a country recognised by the World Organization for Animal Health (OIE) as free from foot and mouth disease, without vaccination.

AND

ii. **Animal health**

1. A statement that the country of origin has controls in place to ensure only healthy animals are used for milk production, or
2. A statement that the animals were clinically healthy at the time the milk was obtained.

(The certificate must indicate the option that applies)

AND

iii. **Disease status of the country of manufacture**

A statement that the product was processed in a country recognised by the World Organization for Animal Health (OIE) as free from foot and mouth disease, without vaccination.

(Processing includes all steps prior to certification. This includes, but is not limited to, manufacturing, packaging, labelling and storage.)

AND

iv. **Date of manufacture**

1. A statement that the packaging or immediate container is stamped with the date of manufacture (the date of manufacture is the date the curd was set), or
2. A statement that a consignment specific manufacturer's declaration is provided with the date of manufacture for each batch or lot number.

(The certificate must indicate the option that applies)

AND

You must present the following on a Government endorsed manufacturer's declaration or Health certificate:

v. **Heat treatment**

A statement that the dairy ingredients were subjected to one of the following heat treatments:

1. Pasteurisation at 72 °C for a minimum of 15 seconds, or
2. UHT treatment of 135 °C for a minimum of 1 second.

If a manufacturer's declaration is presented, the evidence must be from

TRADIZIONI PADANE SRL

Via Brescia, 50

Gottolengo (BS)

**Italy**

The government endorsed manufacturer's declaration will only be accepted if endorsed by the official veterinarian of the exporting country. The manufacturer's declaration must be consignment specific and signed and dated by a Government Veterinary Officer within the last 6 months and include the Government Veterinary Officer's name, position and title.

**Post entry requirements**

Products which are not certified as being heat treated (as described above) are not to be released from biosecurity control until the conclusion of a period of 30 days from the date of manufacture.

- c. The dairy ingredients must meet the following import conditions.

To demonstrate compliance with this requirement you must present the following on a Health certificate:

i. **Species of origin**

A statement that the dairy ingredients are of bovine origin only.

AND

ii. **Disease status of the country of origin**

A statement that the dairy ingredients originated from a country recognised by the World Organization for Animal Health (OIE) as free from:

1. foot and mouth disease, without vaccination, and
2. lumpy skin disease.

AND

iii. **Animal health**

1. A statement that the country of origin has controls in place to ensure only healthy animals are used for milk production, or
2. A statement that the animals were clinically healthy at the time the milk was obtained.

(The certificate must indicate the option that applies)

AND

iv. **Disease status of the country of manufacture**

A statement that the product was processed in a country recognised by the World Organization for Animal Health (OIE) as free from foot and mouth disease, without vaccination.

(Processing includes all steps prior to certification. This includes, but is not limited to, manufacturing, packaging, labelling and storage.)

AND

v. **Date of manufacture**

1. A statement that the packaging or immediate container is stamped with the date of manufacture, or
2. A statement that a consignment specific manufacturer's declaration is provided with the date of manufacture for each batch or lot number.

(The certificate must indicate the option that applies)

AND

You must present the following on a Health certificate or Government endorsed manufacturer's declaration:

vi. **Heat treatment**

A statement that the dairy ingredients were subjected to one of the following heat treatments:

1. Pasteurisation at 72 °C for a minimum of 15 seconds, or
2. UHT treatment of 135 °C for a minimum of 1 second.

The government endorsed manufacturer's declaration must be from  
TRADIZIONI PADANE SRL

Via Brescia, 50  
Gottolengo (BS)  
Italy.

The government endorsed manufacturer's declaration will only be accepted if endorsed by the official veterinarian of the exporting country. The manufacturer's declaration must be consignment specific and signed and dated by a Government Veterinary Officer within the last 6 months and include the Government Veterinary Officer's name, position and title.

d. The egg ingredients must meet the following import conditions.

To demonstrate compliance with this requirement you must present the following on a Manufacturer's declaration:

Evidence that the product contains less than 10% egg ingredients (by dry weight) and does not contain discernible pieces of egg.

The declaration must be from:

TRADIZIONI PADANE SRL  
Via Brescia, 50  
Gottolengo (BS)  
Italy

e. These conditions prohibit the product to be distributed, sold or used for:

1. veterinary or agricultural purposes including stock feed
2. veterinary therapeutic or vaccine manufacture
3. environmental use associated with livestock
4. aquaculture/fisheries or for bait purposes.

f. **Commercial administrative conditions**

Documents must be provided with each consignment which:

1. identify the consignment (if non-personal) e.g. entry number
2. identify all goods being imported as part of this consignment e.g. invoice or waybill or importer's manifest
3. describe the goods being imported (where not clear).  
e.g. 1: Product XRab = Purified protein derived from rabbits  
e.g. 2: Product AX = Synthetic antibiotic  
e.g. 3: Comte = Cheese.

g. Under the [Biosecurity Charges Imposition \(General\) Regulation 2016](#) and Chapter 9, Part 2 of the [Biosecurity Regulation 2016](#), fees are payable to the Department of Agriculture for all

---

services. Detail on how the department applies fees and levies may be found in the [charging guidelines](#).

- h. In addition to the conditions for the goods being imported, non-commodity concerns must be assessed including container cleanliness, packaging and destination concerns, and may be subject to inspection and treatment on arrival. Please refer to the Non-Commodity Cargo Clearance BICON case for further information.

## 2. Food products

This section contains permit conditions for the following commodity (or commodities):

2.	Food items for human consumption	Products listed under Permit Conditions 2.1.a as manufactured by TRADIZIONI PADANE SRL
----	----------------------------------	--

### 2.1. Biosecurity Pathway

Greece has confirmed an outbreak of lumpy skin disease. As a result, dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Greece on or after 25 June 2015 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Greece prior to 25 June 2015 is eligible for import. Additional government certification will be required for any eligible imports.

North Macedonia has confirmed an outbreak of lumpy skin disease. As a result, dairy ingredients (excluding cheese and butter) sourced and/or manufactured in North Macedonia on or after 20 February 2016 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in the North Macedonia prior to 20 February 2016 is eligible for import. Additional government certification will be required for any eligible imports.

Serbia has confirmed an outbreak of lumpy skin disease. As a result, dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Serbia on or after 9 April 2016 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Serbia prior to 9 April 2016 is eligible for import. Additional government certification will be required for any eligible imports.

Croatia has confirmed the commencement of vaccination against lumpy skin disease. As a result, Croatia is no longer recognised as being free from the disease. Dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Croatia on or after 8 August 2016 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Croatia prior to 8 August 2016 is eligible for import. Additional government certification will be required for any eligible imports.

Bosnia and Herzegovina has confirmed the commencement of vaccination against lumpy skin disease. As a result, Bosnia and Herzegovina is no longer recognised as being free from the disease. Dairy ingredients (excluding cheese and butter) sourced and/or manufactured in Bosnia and Herzegovina on or after 30 March 2017 will no longer be permitted entry into Australian territory. Only dairy which is sourced and manufactured in Bosnia and Herzegovina prior to 30 March 2017 is eligible for import. Additional government certification will be required for any eligible imports.

- a. These conditions allow for the import of the following products only:  
Handmade Filled Pasta With Mushrooms as manufactured by TRADIZIONI PADANE SRL
- b. The cheese or butter ingredients must meet the following import conditions.  
To demonstrate compliance with this requirement you must present the following on a Health certificate:
  - i. **Disease status of the country of origin – FMD**  
A statement that the dairy ingredients originated from a country recognised by the

World Organization for Animal Health (OIE) as free from foot and mouth disease, without vaccination.

AND

ii. **Animal health**

1. A statement that the country of origin has controls in place to ensure only healthy animals are used for milk production, or
2. A statement that the animals were clinically healthy at the time the milk was obtained.

(The certificate must indicate the option that applies)

AND

iii. **Disease status of the country of manufacture**

A statement that the product was processed in a country recognised by the World Organization for Animal Health (OIE) as free from foot and mouth disease, without vaccination.

(Processing includes all steps prior to certification. This includes, but is not limited to, manufacturing, packaging, labelling and storage.)

AND

iv. **Date of manufacture**

1. A statement that the packaging or immediate container is stamped with the date of manufacture (the date of manufacture is the date the curd was set), or
2. A statement that a consignment specific manufacturer's declaration is provided with the date of manufacture for each batch or lot number.

(The certificate must indicate the option that applies)

AND

You must present the following on a Government endorsed manufacturer's declaration or Health certificate:

v. **Heat treatment**

A statement that the dairy ingredients were subjected to one of the following heat treatments:

1. Pasteurisation at 72 °C for a minimum of 15 seconds, or
2. UHT treatment of 135 °C for a minimum of 1 second.

If a manufacturer's declaration is presented, the evidence must be from  
TRADIZIONI PADANE SRL  
Via Brescia, 50  
Gottolengo (BS)  
Italy

The government endorsed manufacturer's declaration will only be accepted if endorsed by the official veterinarian of the exporting country. The manufacturer's declaration must be consignment specific and signed and dated by a Government Veterinary Officer within the last 6 months and include the Government Veterinary Officer's name, position and title.

**Post entry requirements**

Products which are not certified as being heat treated (as described above) are not

to be released from biosecurity control until the conclusion of a period of 30 days from the date of manufacture.

- c. The dairy ingredients must meet the following import conditions.

To demonstrate compliance with this requirement you must present the following on a Health certificate:

i. **Species of origin**

A statement that the dairy ingredients are of bovine origin only.

AND

ii. **Disease status of the country of origin**

A statement that the dairy ingredients originated from a country recognised by the World Organization for Animal Health (OIE) as free from:

1. foot and mouth disease, without vaccination, and
2. lumpy skin disease.

AND

iii. **Animal health**

1. A statement that the country of origin has controls in place to ensure only healthy animals are used for milk production, or
2. A statement that the animals were clinically healthy at the time the milk was obtained.

(The certificate must indicate the option that applies)

AND

iv. **Disease status of the country of manufacture**

A statement that the product was processed in a country recognised by the World Organization for Animal Health (OIE) as free from foot and mouth disease, without vaccination.

(Processing includes all steps prior to certification. This includes, but is not limited to, manufacturing, packaging, labelling and storage.)

AND

v. **Date of manufacture**

1. A statement that the packaging or immediate container is stamped with the date of manufacture, or
2. A statement that a consignment specific manufacturer's declaration is provided with the date of manufacture for each batch or lot number.

(The certificate must indicate the option that applies)

AND

You must present the following on a Health certificate or Government endorsed manufacturer's declaration:

vi. **Heat treatment**

A statement that the dairy ingredients were subjected to one of the following heat treatments:

1. Pasteurisation at 72 °C for a minimum of 15 seconds, or

2. UHT treatment of 135 °C for a minimum of 1 second.

The government endorsed manufacturer's declaration must be from  
TRADIZIONI PADANE SRL  
Via Brescia, 50  
Gottolengo (BS)  
Italy.

The government endorsed manufacturer's declaration will only be accepted if endorsed by the official veterinarian of the exporting country. The manufacturer's declaration must be consignment specific and signed and dated by a Government Veterinary Officer within the last 6 months and include the Government Veterinary Officer's name, position and title.

- d. The egg ingredients must meet the following import conditions.  
To demonstrate compliance with this requirement you must present the following on a Manufacturer's declaration:  
Evidence that the product contains less than 10% egg ingredients (by dry weight) and does not contain discernible pieces of egg.  
The declaration must be from:
- TRADIZIONI PADANE SRL  
Via Brescia, 50  
Gottolengo (BS)  
Italy
- e. The product/ingredients must meet the following import conditions.  
To demonstrate compliance with this requirement you must present the following on a Manufacturer's declaration:  
A statement that the product contains *Boletus aereus*, *Boletus aestivali*, *Boletus Edulis*, *Boletus pinicola* and *Boletus reticulatus* only.  
The declaration must be from:
- TRADIZIONI PADANE SRL  
Via Brescia, 50  
Gottolengo (BS)  
Italy
- f. These conditions prohibit the product to be distributed, sold or used for:
1. veterinary or agricultural purposes including stock feed
  2. veterinary therapeutic or vaccine manufacture
  3. environmental use associated with livestock
  4. aquaculture/fisheries or for bait purposes.
- g. **Commercial administrative conditions**  
Documents must be provided with each consignment which:
1. identify the consignment (if non-personal) e.g. entry number
  2. identify all goods being imported as part of this consignment e.g. invoice or waybill or importer's manifest
  3. describe the goods being imported (where not clear).

- e.g. 1: Product XRab = Purified protein derived from rabbits  
e.g. 2: Product AX = Synthetic antibiotic  
e.g. 3: Comte = Cheese.
- h. Under the [Biosecurity Charges Imposition \(General\) Regulation 2016](#) and Chapter 9, Part 2 of the [Biosecurity Regulation 2016](#), fees are payable to the Department of Agriculture for all services. Detail on how the department applies fees and levies may be found in the [charging guidelines](#).
- i. In addition to the conditions for the goods being imported, non-commodity concerns must be assessed including container cleanliness, packaging and destination concerns, and may be subject to inspection and treatment on arrival. Please refer to the Non-Commodity Cargo Clearance BICON case for further information.
